#### *molleton (black)*

length	3,50 m
height	1,80 m
class	B1

#### *pictogram "emergency exit"*

length	3,50 m
height	2,00 m
weight	650 g/sqm

#### *support brace*

height	2,20 m
weight	5 kg

#### *lighting*

length	ca. 1,50 m
weight	6,5 kg

#### *transport*

##### *mobile fence panel*

per pallet	max. 30 items
per trailer truck	max. 180 items

##### *fence base stand*

per frame	max. 30 items
-----------	---------------

#### *in general*

loading and unloading  
per loading crane or forklift

### Mobile Fence

It is a very important device for separating and securing terrain and paths.

Our mobile fence is adequate for various purposes like for long-term construction sites as well as for short-term projects and events. It is arranged and removed within minutes.

Concerning fire protection our mobile fence fulfils all requirements of the MVStättVO. It is completely hot zinc dipped. The installation requires fence base stands.

The separate fence panels are fixed to each other by plug-in connections and by using clamping pieces.

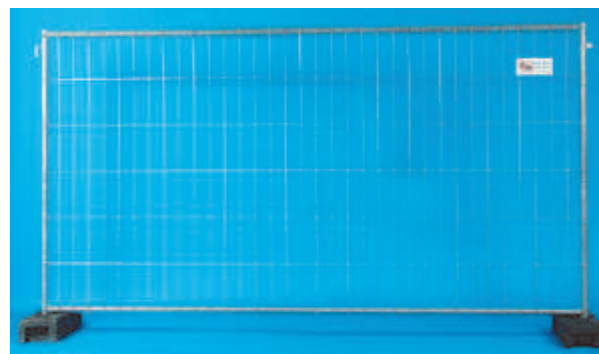

#### Accessories:

- clamping piece for secure connecting
- fence base stand
- fence plastic covers (white or black) for screening outdoor areas
- B1 molleton (black) for indoor screening
- pictogram "emergency exit" for visual labelling
- fence support braces
- lighting
- gate wheels

You can find more information and more rentable equipment on our website [www.japo.de](http://www.japo.de).
