

Ground Protection

Versatile Wooden Panels OSB 3

The versatile wooden panels consist of multiple wood layers glued together for a better point distribution of the weight. The panels can be placed in several layers.

The panels are suitable for purposes like ice coverage, indoor coverage and stage coverage. Another option is the arrangement of colourful stage decorations e.g. for magic performances as the panels can be painted.

You can find more information and more rentable equipment on our website www.japo.de.

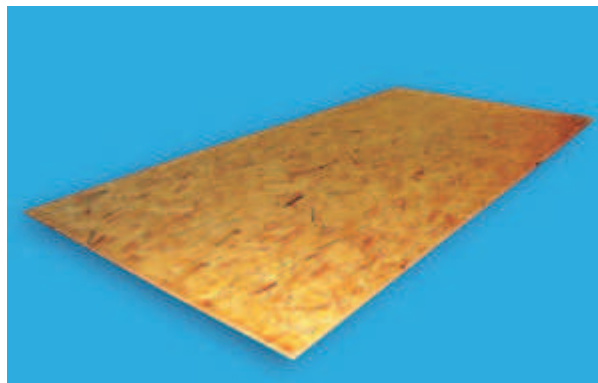

Technical Details

versatile wooden panels OSB 3

width	125 cm
length	250 cm
height	1,8 cm
weight	40 kg
load capacity	80 kg/qcm

transport

tu	max. 50 panels
per trailer truck	ca. 1.750 sqm
