

KUBOTA RTV X 900

- Kubota RTV X 900
- Colour: orange
- Multi-purpose transport vehicle
- Areas of use: e.g. production or site vehicle
- Engine: 898 cm³, 3 cylinder Diesel engine water-cooled
- 21.9 PS, fuel tank 30 l
- Incl. STVZO (National Vehicle Safety Standard) equipment, speedometer
- Front bar, 2 individual seats
- Safety roll bar
- Tipping loading bed
- Gear: variable Hydrostatic, 3 modes
- max. Speed 40 km/h
- 4-wheel drive: switchable 4-wheel drive, front axle with self-locking differential, differential lock with locking option for rear axle
- Comfort: independent wheel suspension with double wishbones and adjustable suspension struts front and rear
- dynamic brakes
- Steering: fully hydraulic power steering
- Ball head coupling
- Safety cab with full glazing, adjustable windscreen, doors easy to remove and lock, interior trim with noise insulation, heating and fan

TECHNICAL DETAILS

Total length	3,110 m
Total width	1,605 m
Total height	1,998 m
Weight	937 kg
Towed load braked	1,000 kg
Flatbed load	500 kg

AREAS OF USE

Kubota RTV X 900 - Multi-purpose transport vehicle

Even with heavy load the 3 cylinder Diesel engine and the standard 4-wheel drive with differential lock provide the necessary off-road capability, even under extreme conditions. With a trailer load of 1000 kg the Kubota RTV X 900 sets standards. Moreover, the working hydraulics is unique in order to easily and fast unload the fully loaded loading bed.

The load-dependant hydrostatic gear gives the multi-purpose transport vehicle its power. It features three modes, fast acceleration, optimal traction on each terrain, outstanding driving characteristics at inclines, and safe driving on declines. For off-road driving the Kubota RTV X 900 features the necessary responsiveness.

Thanks to the enormous ground clearance of approx. 20 cm the Kubota multi-purpose transport vehicle can be driven on rough and unknown terrain. For extreme stability and high driving comfort the machine is equipped with a long wheelbase and wide base tyres.

ADRESSE

Blankenauer Str. 61
09113 Chemnitz

No matter if you transport a high load or small amounts – both can be safely loaded in the especially big loading bed. A real hydraulic lifting system enables the easy tipping and unloading by using a single lever. The Kubota multi-purpose transport vehicle can easily transport a Euro pallet (1.2 m).
