

URINAL STAND

Do you want to reduce long queues at big events? Or prevent illegal urinating e.g. in parks and recreation areas? The urinal stand provides a real alternative to "wild urinating" and thus contributes actively to environmental protection! On an area of only 1.3 m², depending on the version, three to four males can simultaneously do their business. The integrated tank enables about 1,000 uses, and projecting separating walls create sufficient privacy.
